

Managed IT

Healthcare-First IT That Removes Complexity and Supports Care Delivery

Healthcare and senior living organizations rely on always-on technology but often face disruptions from fragmented vendors, aging infrastructure, and limited IT capacity. DAS Health Managed IT delivers a standardized, healthcare-built operating model with proactive monitoring, responsive support, and clear accountability—resulting in greater stability, improved performance, and fewer daily disruptions.

Unlike reactive MSPs, DAS Health operates IT as a purpose-built healthcare platform aligned to clinical workflows, compliance, uptime, and long-term growth—so providers and staff can focus on care, not IT.

Solutions

- **Managed IT & Healthcare Infrastructure Management:** Reliable, standardized IT infrastructure designed to support clinical workflows and consistent care delivery.
- **Infrastructure Management:** Network, server, and cloud management purpose-built for healthcare environments, standardized across single and multi-site organizations with full lifecycle oversight.
- **24/7 Monitoring & Support:** Proactive monitoring and healthcare-trained support that identifies issues early and minimizes disruption to care.
- **Endpoint & Device Management:** Secure, standardized management of workstations, laptops, and clinical devices ensuring consistent performance and scalable deployment.
- **Workflow & Performance Optimization:** Technology optimized for faster logins, better application performance, and fewer recurring IT issues keeping providers productive.
- **Vendor Consolidation & IT Standardization:** One accountable partner replacing fragmented vendors, delivering consistent service and clear ownership.
- **Multi-Site & Growth Enablement:** Scalable IT models that support new locations, acquisitions, and integrations without overwhelming internal teams.

The DAS Health Advantage

- **Healthcare-Built:** Designed for real clinical workflows
- **North American Coverage:** U.S. & Canada support
- **White-Glove Service:** High-touch, relationship-driven
- **SOC 2 Type II Certified:** Validated security & controls
- **24/7 Security Operations Center:** Continuous monitoring & response
- **One Accountable Partner:** IT, cybersecurity & professional services unified
- **Standardized & Scalable:** Consistent results everywhere
- **Proactive Support:** Fewer disruptions, faster resolution
