Professional Services

Strategic optimization that improves care delivery, operational efficiency, and decision-making.

Healthcare and senior living organizations depend on complex systems to deliver care, manage operations, and make informed decisions, yet many struggle with inefficient workflows, underutilized systems, disconnected data, and stalled initiatives.

DAS Health Professional Services deliver strategic system optimization and data enablement that improve clinical, operational, and financial performance. We go beyond implementation to optimize how technology supports care delivery and decision-making. Our consultants align systems, workflows, and reporting to real-world care processes and provide hands-on execution with defined scope, timelines, and success criteria backed by dedicated technical leadership and coordination across IT, cybersecurity, vendors, and operations ensuring projects are delivered efficiently, securely, and with minimal impact to care delivery.

Services

- **EHR Optimization & Performance:** Workflow redesign, usability improvements, and system tuning that optimize clinical, operational, and revenue cycle performance.
- **Operational & Workflow Strategy:** Process design aligned to care delivery and staff roles to improve productivity and reduce administrative burden.
- **Data Integration & Interoperability:** Data migration, validation, and system integration (HL7, FHIR, APIs) that connect EHRs, practice management systems, labs, and third-party platforms.
- **Systems Integration & Optimization:** Integration of clinical, operational, and business systems to improve workflows, data access, and performance.
- **Reporting & Quality Programs:** Quality reporting strategy for MIPS and UDS/UDS+, supported by custom reporting and strong data governance.
- **System Transitions & Major Initiatives:** Execution of EHR migrations, upgrades, vendor transitions, and multi-location standardization initiatives.
- **Strategic Oversight:** Advisory support and roadmaps aligned to compliance, growth, and performance for IT, clinical, and operational leadership.

DAShealth™

The DAS Health Advantage

- **Healthcare-Built:** Designed for real clinical workflows
- **North American Coverage:** U.S. & Canada support
- **White-Glove Service:** High-touch, relationship-driven
- **SOC 2 Type II Certified:** Validated security & controls
- **24/7 Security Operations Center:** Continuous monitoring & response
- **One Accountable Partner:** IT, cybersecurity & professional services unified
- **Standardized & Scalable:** Consistent results everywhere
- **Proactive Support:** Fewer disruptions, faster resolution

Services

- Managed IT Services
