Corporate Overview

Healthcare-First Technology Partner for Ambulatory & Senior Living Organizations

Healthcare and senior living organizations operate in high-pressure environments where technology reliability and security directly impact care, safety, and performance. Many struggle with fragmented vendors, aging infrastructure, cybersecurity risk, compliance pressure, and limited IT resources—leading to slow systems, workflow disruption, and staff frustration.

DAS Health is a full-service technology partner delivering Managed IT, Cybersecurity, and Professional Services purpose-built for healthcare and senior living. We replace reactive, fragmented IT with a standardized, secure, and scalable platform backed by high-touch, healthcare-experienced teams.

Unlike generalist MSPs, DAS Health stabilizes operations, protects sensitive data, and improves the day-to-day experience for providers, caregivers, and staff.

The DAS Health Difference

DAS Health is purpose-built for healthcare and senior living organizations that operate in always-on care environments. We focus exclusively on healthcare designing every solution around clinical workflows, regulatory requirements, uptime expectations, and real-world operational demands.

Our one accountable partner model unifies Managed IT, Cybersecurity, Professional Services, and strategic advisory under a single, integrated platform eliminating vendor sprawl, finger-pointing, and operational friction.

DAS health™

Beyond support, DAS Health delivers a proactive strategy. We help leadership teams plan, prioritize, and execute technology roadmaps aligned to growth, reducing complexity first then optimizing for stability, scalability, and predictable outcomes.

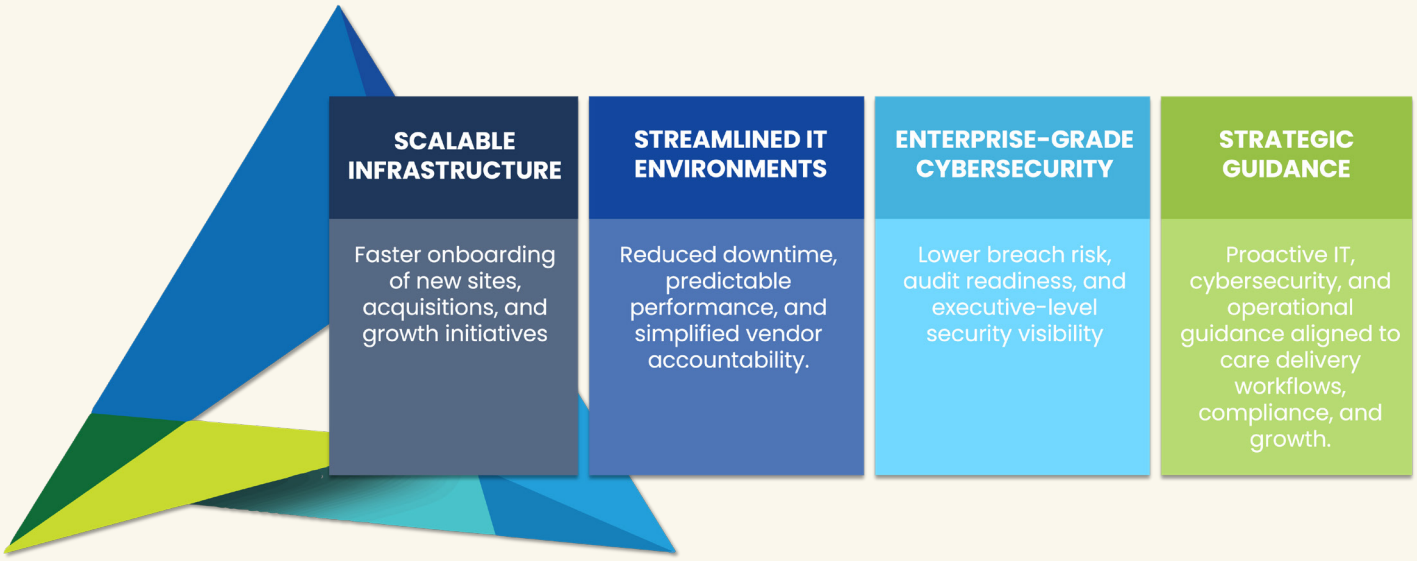
With enterprise-scale capability and a white-glove, relationship-driven service model, DAS Health supports complex, multi-site organizations through growth, acquisitions, and ongoing optimization while maintaining consistent performance across every location.

Proven nationwide results include:

- **17%** average client cost savings
- **93%** client satisfaction
- **30,000+** endpoints managed

DAS Health is trusted by healthcare and senior living organizations of all sizes to deliver secure, reliable technology and a better day-to-day experience for the people who depend on it.

Service Platform



About DAS Health

DAS Health is a full-service strategic technology partner for ambulatory healthcare and senior living organizations nationwide, offering Managed IT, Cybersecurity, and Professional Services designed for clinical and operational complexity. Our clients benefit from purpose-built technology solutions, plus a client-experience-driven support model grounded in healthcare expertise, responsiveness, and consistent engagement.

From single practices to multi-state enterprise systems, DAS reduces fragmentation, protects patient data, and helps organizations scale confidently and cost-effectively—while elevating the daily experience of the people who depend on reliable technology to deliver care.
