

# Cybersecurity

Healthcare-First Cybersecurity That Protects Care Delivery, Data & Operations

Healthcare and senior living organizations operate always-on environments where cyber threats, downtime, and data loss directly impact care, safety, and performance. Many face growing risk due to fragmented security tools, inconsistent controls, aging infrastructure, limited IT resources, and rising HIPAA and cyber insurance pressure—leaving them vulnerable to ransomware, phishing, and compliance gaps.

DAS Health delivers enterprise-grade cybersecurity purpose-built for healthcare and senior living, unifying technology, process, and people into a scalable security model that strengthens protection today while supporting long-term growth, compliance, and a better experience for providers and staff.

## Solutions

### ESSENTIALS

**Includes:**

- Endpoint Detection & Response (EDR)
- Anti-Ransomware Protection
- Managed Detection & Response (MDR)
- Expert-led threat monitoring and response
- On-demand cybersecurity support

**Outcomes**

- Reduced ransomware risk
- Faster threat detection and response
- Improved insurability and baseline risk posture

### ADVANCED

**Includes Essentials, plus:**

- Advanced Security Audit
- Comprehensive Security Risk Analysis
- HIPAA & Security Awareness Training
- Dark Web Credential Monitoring

**Outcomes**

- Lower human-risk exposure
- Stronger compliance readiness
- Improved audit and insurance positioning

### COMPLETE

**Includes Advanced, plus:**

- 24/7 Security Operations Center (SOC)
- Protective DNS & Internet Monitoring
- Multi-Factor Authentication (MFA)
- Vulnerability & Compliance Management
- Penetration Testing

**Outcomes**

- Consistent security controls across all sites
- Reduced exposure to advanced threats
- Greater executive visibility into security posture

## The DAS Health Advantage

- **Healthcare-Built:** Designed for real clinical workflows
- **North American Coverage:** U.S. & Canada support
- **White-Glove Service:** High-touch, relationship-driven
- **SOC 2 Type II Certified:** Validated security & controls
- **24/7 Security Operations Center:** Continuous monitoring & response
- **One Accountable Partner:** IT, cybersecurity & professional services unified
- **Standardized & Scalable:** Consistent results everywhere
- **Proactive Support:** Fewer disruptions, faster resolution

## Services

- Managed IT Services
- Cybersecurity Services
- Professional Services
- IT Projects & Assessments
- Multi-Site & M&A Technology Integration
