

# Virtual Chief Information Officer (vCIO)

Clear IT Strategy for Complex Healthcare Environments

**Healthcare executives are under constant pressure to make technology decisions that support clinical performance, security, and growth often without clear visibility or long-term planning. Reactive fixes and fragmented guidance increase risk, waste spend, and slow organizational progress.**

DAS Health vCIO services provide executive-level leadership that aligns IT investment, cybersecurity, and operational strategy to clinical and business outcomes. We help healthcare organizations move from reactive decision-making to structured, defensible planning giving leadership confidence at the executive and board level.

## Services

- **vCIO IT Strategy & Roadmap:** Multi-year IT roadmaps aligned to clinical, operational, and growth priorities ensuring technology investments drive business outcomes.
- **Technology & Vendor Rationalization:** Consolidated vendors and standardized platforms to reduce complexity, cost, and operational risk.
- **Cybersecurity & Risk Oversight (vCIO Scope):** Executive oversight aligning IT strategy with cybersecurity, compliance, HIPAA readiness, and cyber insurance requirements.
- **Budgeting & Cost Optimization:** Predictable IT budgeting and lifecycle planning that shifts conversations from cost to measurable impact.
- **Growth, Expansion & M&A Support:** Scalable IT planning for new locations, acquisitions, and integrations reducing disruption during growth.
- **Governance & Executive Reporting:** Board-level visibility into technology risk, performance, and investment to support confident decision-making.
- **vCIO vs. vCISO:**
  - vCIO: Technology strategy, investment, and operations
  - vCISO: Cybersecurity risk and compliance
